

Christmas In July Carrier Bead Exchange

1. Register to participate. Exchange will be limited to the first 20 to sign up. If there are only 15 participants, then you will need to make 15 beads.
 - Kits will be put together depending upon the total number of participants.
 - Size 11/0 Delica beads in holiday colors and acrylic carrier beads will be provided for your project.
 - You will need to supply beading needle and 6lb. Fireline for the project, and your desired parts to assemble your piece once you receive your completed exchange carrier beads.
2. Any pattern may be created on each carrier bead. You may do all the same or change them up, make them patterned or solid. You may add delica beads or others into your designs. Odd or even count peyote is fine. The kit beads are basics for you to work off of. The goal is that each participant will end up with enough carrier beads to build their own bracelet or necklace.
3. All completed carrier beads will be due back at Simply Beadiful by Thursday, September 27, 2018. I will compile all beads and redistribute them to each participant within the next 10 days by mail. Once you receive your beads, design your jewelry piece to your liking and we will set up a date to post them online on the Facebook page.
4. Anyone that joins in the fun will need to adhere to the scheduled dates set for completion/mailing/dropping off at the store.
5. Peyote knowledge is helpful. Anyone wishing to participate that needs a refresher can stop in the store for assistance.
6. Anyone that participates and is not in the vicinity of Springfield, MA will need to plan on mailing their beads here to the store so they arrive
